Why the Delivery Method Actually Matters

You can take all the right supplements—but if they don't absorb efficiently or fit into your routine, results may fall short.

That's where intranasal delivery comes in:

- No needles
- No clinic visits
- Just a quick mist that may deliver NAD+ more directly and efficiently

What Is NAD+ and Why Do People Use It?

NAD+ (nicotinamide adenine dinucleotide) is a coenzyme found in every cell in your body. It plays a vital role in:

- Converting food into energy (cellular metabolism)
- Supporting DNA repair and healthy aging
- Enhancing cognitive performance and recovery
- Combating fatigue and brain fog

Your natural NAD+ levels decline with age, stress, poor sleep, and alcohol use. That's why more people are using NAD+ therapeutically—to feel sharper, more energized, and resilient.

Intranasal vs Injection: What's the Difference?

Nasal Spray

- **Ease of Use:** Self-administered in seconds
- **Where It Works:** Absorbed through nasal passages
- **Absorption:** Bypasses digestion and liver

- **Convenience:** Travel-ready, no downtime
- **Discomfort:** Needle-free
- **Clinic Visit?:** No

Injection

- **Ease of Use:** Requires prepping needles and vials
- **Where It Works:** Injected into muscle or fat
- **Absorption:** Direct to bloodstream
- **Convenience:** Can be harder to keep consistent
- **Discomfort:** Involves regular pokes
- **Clinic Visit?:** Not required, but harder for needle-averse users

Why Nasal Delivery May Be a Better Fit

1. Bypasses Digestion

Unlike oral supplements (which break down in the gut), nasal sprays skip digestion and may preserve more of the active compound.

2. Quick & Convenient

Injections require prep, disposal, and a tolerance for needles. Nasal sprays? Two seconds and you're done.

3. Potential Cognitive Benefits

Intranasal delivery puts NAD⁺ closer to your brain—literally. The olfactory region provides a pathway that's being studied for its potential neurological impact.

4. Designed for Daily Life

Toss it in your bag, use it before a workout or after a red-eye flight—it's a low-friction way to stay consistent.

Who Chooses Nasal Over Injections?

Intranasal NAD⁺ may be a good fit if you're:

- A busy professional needing energy and focus without clinic visits
- Someone who hates needles but still wants powerful results
- A frequent traveler battling jet lag or brain fog
- Into longevity or performance but not into high-maintenance routines

-
- Already using injections and looking for a simpler alternative

How It Works

PepPro connects you with licensed, independent healthcare providers who can evaluate whether intranasal NAD+ is a fit for you. If approved, your prescription is filled by a licensed pharmacy and shipped straight to your door.

You'll still get clinical oversight—just without the hassle.

FAQ: Quick Answers About NAD+ Nasal Spray

Is intranasal NAD+ as effective as NAD+ injections?

It depends on your goals and your body. For many people, nasal delivery is a more sustainable and convenient way to stay consistent.

Does it hurt?

Nope. No needles, no sting. Just a quick mist.

How often do I use it?

Usage depends on your provider's plan, but most people use it regularly as part of their wellness routine.

Do I need to go to a clinic?

No the whole process—from evaluation to delivery—happens online.

By checking this box, you acknowledge that you have read PepPro [Disclaimer of](#)

[Liability](#) and accept its terms and conditions. **PepPro —**

Liability Disclaimer

1. Scope and Acknowledgment

PepPro products—including genetic testing kits and research-grade peptides—are provided **exclusively for in vitro laboratory research purposes**. By purchasing, you acknowledge and agree that these products are **not intended, produced, or**

authorized for human or animal consumption, administration, diagnostic, therapeutic, clinical, cosmetic, or nutritional use.

2. “AsIs” Condition & No Warranties

All PepPro products are supplied **“as is” and “with all faults”**, with **no express or implied warranties**, including those of merchantability, fitness for a particular purpose, safety, quality, or non-infringement. They have not undergone safety, sterility, toxicity, or efficacy testing for humans or animals.

3. Assumption of Risk & Complete Release of Liability

By purchasing, you accept **full responsibility** for handling, storage, use, or disposal of PepPro products. **Under no circumstances** will PepPro be liable—whether in contract, tort (including negligence), strict liability, or otherwise—for any personal injury, adverse reaction (even if due to contamination or mislabeling), illness, death, damage, loss, or costs (including legal or regulatory).

4. No Liability for Adverse Events

You expressly agree that **any adverse reaction or injury**, whether resulting from misuse, unforeseen exposure, contamination, or improper handling, is solely your responsibility. PepPro **disclaims all liability** under any legal or equitable theory, regardless of any failure to warn or known risk.

5. No Professional Advice or Claims

PepPro does **not** provide medical, dietary, legal, or other professional advice. Information, data, or results obtained are **for research purposes only** and should **not** be used for clinical or therapeutic decision-making.

6. Legal Compliance and Misuse

You represent that you:

- Are qualified and equipped to handle research-grade materials safely;
- Will use these products exclusively in a controlled laboratory environment;
- Will comply with all applicable laws, regulations, and institutional policies governing purchase, handling, use, import/export, and disposal.

Use beyond intended research purpose or regulatory non-compliance constitutes a material breach, entitling PepPro to terminate your purchasing rights and pursue legal remedies, including injunctions, damages, and indemnification.

7. Indemnity Obligation

To the fullest extent permitted by law, you agree to **indemnify, defend, and hold harmless** PepPro (and its officers, directors, employees, agents, and affiliates) from all claims, liabilities, losses, damages, or expenses (including attorneys’ fees) that arise from:

- Misuse or unauthorized use of products;

- Adverse reactions or injuries;
- Non-compliance with this disclaimer or applicable laws.

8. Limitation of Liability

Even if PepPro is aware of potential loss or harms, its **maximum aggregate liability** shall not exceed the total purchase price paid by you for the product in question. All other damages are disclaimed.

9. Binding Effect and Updates

This Disclaimer is part of your binding agreement with PepPro. PepPro reserves the right to update or amend this Disclaimer at any time, and continued purchase constitutes acceptance of any changes.

Customer Confirmation

By completing a purchase from PepPro, you confirm that you:

1. Understand and agree that products are **strictly research-use-only**;
2. Will **not use** them for human or animal consumption, diagnostic, therapeutic, cosmetic, or food purposes;
3. Assume all risks and **fully release PepPro from any liability**, including for reactions or misuse;
4. Agree to **indemnify** PepPro according to the terms above.

By checking this box, you are agreeing to all the terms outlined in the [HIPAA Consent form](#), including PepPro disclosure to protected health information about you for treatment, payment, and health care operations.

HIPAA Consent and Acknowledgment of Privacy Practices – PepPro

PepPro is committed to protecting your health information and complying with the Health Insurance Portability and Accountability Act of 1996 (HIPAA). This consent form explains how we may use and disclose your Protected Health Information (PHI) as part of your care.

Use and Disclosure of Your Information

By signing this form, you consent to PepPro use and disclosure of your PHI for the following purposes:

- **Treatment:** Coordination and management of your care.

- **Payment:** Billing and payment processing through your provider or health plan.
- **Healthcare Operations:** Internal operations such as quality assessment, staff training, and administrative purposes.

Your Rights

You have the right to:

- Review our **Notice of Privacy Practices** before signing this consent.
- Request restrictions on how your PHI is used or shared. While PepPro is not required to agree to all requests, we will honor any agreed-upon restrictions.
- Revoke this consent in writing at any time. Revocation will not affect disclosures made prior to your written request.

Our Responsibilities

- We are required to maintain the privacy of your PHI and follow the terms of our current Notice of Privacy Practices.
- We may update our privacy practices periodically. You may request a revised copy at any time by contacting our team.

Patient Acknowledgment

By signing this consent, you acknowledge the following:

- You understand that your health information may be used or disclosed for treatment, payment, or healthcare operations.
- You have received and reviewed PepPro Notice of Privacy Practices.
- You understand your rights regarding the use and disclosure of your health information.

You understand that services may be conditioned upon your signing of this consent. If you have questions or wish to request a copy of our Notice of Privacy Practices, please contact us at: **info@peppro.net**
